

TO DD: I NEXT

MEMORANDUM FOR: THE DIRECTOR

Attached is an advance copy of another staff study from Senator Jackson's Subcommittee on National Policy Machinery entitled "The Secretary of State and the National Security Policy Process." This is marked for release on 6 February 1961. The study touches on the interchange of civilians and military between State and Defense. The study indicates it will be desirable to enlarge this and broaden the scope to include participation by other agencies, including the Central Intelligence Agency.
